

The Mid-Norfolk Gundog Club, started by a group of friends over 30 years ago, became a Kennel Club Registered Society in 1990. The founding members wanted to improve their skills as trainers and handlers and the Club continues to provide training classes from late spring to late summer aimed at producing good working gundogs. We also run a programme of competitions for spaniels and retrievers as Gundog Working Tests, usually held in the summer months and using dummies, as well as Field Trials during the shooting season.

The popularity of competitions has grown substantially in recent years and we now have many competition members from across the UK and Europe.

The Club is proud of our long association with The Wayland Show and we are delighted to be taking part again this year.

Come and see us illustrate the work of spaniels and retrievers in the main ring or find out more about successfully training a gundog at our stand.
